

Leathermarket **JMB**

Job Title **Repairs Operative (Electrician)**

Salary:- L8 £33,162 to £34,986

Purpose of Job

A Repairs Operative will complete specified responsive repairs to Leathermarket JMB's managed properties ensuring that the JMB's repairing obligations (statutory, contractual and discretionary) are met at all times in the completion of the specified repair work. The jobs involve working in both tenanted and void properties and in all communal areas of the blocks and estates irrespective of the weather conditions. Delivery of these responsive repairs will be to a high standard and in a timely fashion ensuring the needs of the tenants are paramount. The post-holder will form an essential part of the JMB's customer focused service delivery and, as such, will always maintain the highest standards in terms of workmanship, uniform, customer care and compliance issues. The post-holder will be part of a team of Repair Operatives/Assistants directly employed by the JMB designed to deliver a more efficient and responsive value for money service than if the service were contracted out to the private sector.

Main Duties and Responsibilities:

- Carry out any and all responsive repairs as directed by the Repairs Delivery Manager (RDM) but primarily in relation to electrical works as indicated at the end of this section. At all times recognizing the work may be carried out in customers' homes and therefore appropriate procedures in terms of dust sheets, debris clearance, safe working practices etc are to be adopted at all times.
- Acting as the Direct Labour Organisation's (DLO's) expert electrician will advise others on minor electrical tasks (subject to appropriate certification) they are required to perform and will train Repair Assistants on the electrical trade.
- To identify the correct materials and tools (in terms of both type and quantity) for each job and to collect and transport materials to site ensuring that all stock/materials audit procedures are adhered to.
- Carry out preparatory work in the JMB's store shops as required. Reporting to the RDM, responsible for stores in terms of use, cleanliness and tidiness, compliance with health and safety regulations, security and stock and materials.

- Liaises with office based JMB staff, residents or their representatives and outside bodies/staff to ensure appointments are kept and access arrangements are handled in a proper and timely manner.
- Review the repair work specified both before and during the job reporting back on any additional work required or the need for an alternative design solution. Also to help diagnose and specify repair work in relation to 'inspect and report back' job tickets.
- In carrying out these peripatetic duties to ensure that all repairs needed to the JMB's block and estate communal areas are recorded and reported back to the RDM with special emphasis on compliance/health and safety issues such as communal lighting and trip hazards.
- Attendance for evictions will be required from time to time and to facilitate forced entries (including subsequent security and lock changes) both to properties and communal areas.
- As and when required to purchase materials and tools, to take delivery and store appropriately materials and tools and to make deliveries.
- To respond to all emergencies, including those occurring out of core hours, in an appropriate and timely fashion to ensure that conditions are made safe and damage to the JMB's stock/assets are minimal.
- Ensure that all compliance issues that come to your attention (for example health and safety, vandalism and antisocial behaviour) are identified, documented, reported and remedied in a timely fashion.
- Take responsibility for any JMB vehicle being used as part of the duties, ensuring it is driven in an appropriate manner, is roadworthy, serviced, clean and tidy. To ensure that it is used to transport personnel, materials and tools to site and to assist in the subsequent clearing of debris from site including its disposal.

Electrical works include:

- Test and report on domestic and communal circuits
- Renew sockets, switches, light fitments etc.
- Undertake PAT tests on equipment-
- Rewire domestic circuits (including all earthing/bonding)
- Re-lamping of communal fitments.
- Renew/replace timing/photosensitive switches to communal systems
- Carry out checks of intake cupboards (inc. changing main fuses)

Job Context

The post holder reports to the Repairs Delivery Manager however having a trade (Electrician) the post holder will be the autonomous in carrying out repairs on site. In carrying out repairs the post holder will be expected to work without supervision. In respect of electrician activity the post holder will be expected to train, advise and supervise repair assistants as part of their development. As part of the customer facing workforce, the DLO must maintain the highest standard of a professional tradesman at all times.

Leathermarket **JMB**
